

## Six Degrees

## Scouting for Girls

There's only six degrees  
Between you and me  
No matter where you are  
No matter how far.

Seven billion souls  
Spread from the Pole to Pole  
From the city to the slum  
But I only need one.

So when you went away (So when you went away)  
Everything just changed (Everything just changed)  
Six degrees apart (Six degrees apart)  
Without a place to start

I'm putting on a brave face, even though I'm falling apart  
I'm putting on a brave face, it's not a lot but at least it's a start  
. .  
They say that I'm a lost case, and I'm losing myself in the dark,  
But I'm putting on a brave face, it's not a lot but at least it's a s  
tart.

Six degrees  
Between you and me  
And we're on the same path  
You just got a head start.

But no matter where you run  
We'll always share the same sun  
And the air you breathe  
Was maybe once in me.

I'm putting on a brave face, even though I'm falling apart  
I'm putting on a brave face, it's not a lot but at least it's a start  
. .  
They say that I'm a lost case, and I'm losing myself in the dark,  
But I'm putting on a brave face, it's not a lot but at least it's a s  
tart.

I'm putting on a brave face, even though I'm falling apart  
I'm putting on a brave face, it's not a lot but at least it's a start  
. .  
They say that I'm a lost case, and I'm losing myself in the dark,  
But I'm putting on a brave face, it's not a lot but at least it's a s  
tart.

I'm putting on a brave face, even though I'm falling apart  
I'm putting on a brave face

They say that I'm a lost case, and I'm losing myself in the dark,  
But I'm putting on a brave face, it's not a lot but at least it's a s  
tart.
