

## Came Without Warning

Scream

It came without a warning  
No one just knew  
Except the ones who were doing it to you  
Looked all around  
It came without a sound  
Was no reason, no time  
No warning, not a sign

It came without a warning (4x)

It came from beyond  
When they dropped the bomb  
You were watching the Brady Bunch  
While your brain was out to lunch  
Fast food fed on Captain Krunch  
Drowned in atomic punch  
Gone in an eternal munch  
You didn't even have a hunch

It came without a warning (4x)

Came without a warning (3x)

Came without a warning (3x)  
That's why we warned you!
