I Look When You Walk

Scream

Looking down
And on the ground
But it makes a nice home
For my friends and me

I'm on my way
So please don't bother me
Can't you see that I'm much too busy?
And a glance is as close as I will get to you

Too you (3x)

I look when you walk (2x)
I look when you walk by

See my crown
King I've found
And I got a grate for a throne
That you can share with me

Clean up town
So no-one else will see
A service drone in the name of pity
To keep the streets nice and clean for the public to view

And it's all for you
For you

I look when you walk (2x)
I look when you walk by

I look when you walk (2x)
I look when you walk by
[X4]
To see if you're looking
To see if you're looking at me
