

# Influenced

## Scream

No, they won't let me go there no more  
It's bad habits left at the door  
Face to face, though ignored, that frighten me

Influenced to ignorance  
You influenced to ignorance  
Influence  
Influence  
That makes sense for you

You that accused  
Of second thoughts just used  
That impel me to pursue  
The old ways that always stay

A thought occurred to me  
From what I thought to be  
I looked around and saw the sound  
But like the dark it surrounded me  
Unaware of the stare  
That my mind held to see
