## **Julie Paradise**

## **Screaming Trees**

A dog hides in the night No wrong or right A dog hides from the heat I need sugar sweet I need some, but she Says it's gonna ruin my mind Something's gone wrong inside I'm thinking

Paradise... all that I want And a little water And a little water Something's going wrong in my mind Something's going wrong inside I'm thinking... Paradise

Julie your mother cried Sent home a bullet for the family That's how your father died Died a broken and lonely man Something's going wrong in my mind Something's going wrong inside I'm thinking

Hey Lord keep ahold You don't ever know where to fall Hey Lord keep ahold You don't ever know where to fall

A dog hides in the night No wrong from right A dog hides in the heat I need sugar sweet I need some, but she Says it's gonna ruin my mind Something's gone wrong inside I'm thinking... Paradise

Julie your mother cried Sent home a bullet for the family That's how your father died Died a broken and lonely man Something's going wrong in my mind Something's going wrong inside I'm thinking...

Paradise... Paradise... Paradise...
