

## Walk Through to This Side

Screaming Trees

Walk through to this side  
I'm sinking in the pale light  
Drawing breath in from thin air  
When I think about the place I've been

Walk through to this side  
Walk through to this side

You stand on a tightrope  
You take away and no one knows  
The evening sun is dripping fire  
And tears are burning into your side

Walk through to this side  
Walk through to this side  
Walk through to this side

Yeah, music's coming down  
No one is around  
Got the doors open wide  
Come on inside

Walk through to this side  
Been waiting such a long time  
I've gone travelling everywhere  
I turn around but you're not there

Walk through to this side
