

Wasted Time

Screaming Trees

Have you ever really needed something so bad that it hurt?
Have you ever just wanted to feel better?
Have you ever really wanted someone you never will lose?
Have you ever just wanted to feel nothing?
Nothing more, nothing less
Nothing matters till I'm gone

I don't want to say that I need you
Every day is wasted time
All I do is lose when I need you
All I do is lose what I find

You ask me if I care about you, like you really don't know
I wonder if my answers still mean something
Nothing more, nothing less
Nothing matters till I'm gone

I don't want to say that I need you
Every day is wasted time
All I do is lose when I need you
All I do is lose what I find

Have you ever just wanted someone you never will lose?
Have you ever just wanted to feel nothing?
Nothing more, nothing less
Nothing matters till I'm gone

I don't want to say that I need you
Every day is wasted time
All I do is lose when I need you
All I do is lose what I find

Have you ever just wanted someone you never will lose?
Have you ever just wanted to feel nothing?
Nothing more, nothing less
Nothing matters till I'm gone
