

Just Like Me

Scum of the Earth

As you lay beside me
And stare into my eyes
I wonder if you're hollow b
Behind that smile

Just like me
Just like me

As you lay here beside me in pieces
Do you think I'm crazy?
If I put you back together
Will you be who you were?

Just like me
Just like me, yeah

As I lay beside you
And lie to get a smile
I always knew you were
The devil in disguise

Just like me
Just like me

And I like her quiet like this
And I wonder does she still love me?
If I put her back together
How do I make her crazy?

Just like me
Just like me
Just like me

As you lay here beside me in pieces
Do you think I'm crazy?
If I put you back together
Will you be who you were?

Just like me, ha-ha-ha-ha

And I like her quiet like this
And I wonder does she still love me?
If I put her back together
How do I make her crazy?

Just like me
Just like me, yeah
