

I don't need this body
Or this house anymore
I've fallen down
I'm snowed in
All is cold
All is dry

You can keep my body in your house
To stop the blood from pouring out

While I was away
You let your hair grow long
I'm peeling in
And I can't sing
Without you
In my blood

You can keep my spirit in your house
To stop the blood from crying out

I don't need these hands
Or this head anymore
I fell down
I'm snowed in
All is cold
All is dry

You can keep my body in your house
To stop the blood from pouring out
You can keep my spirit in your house
To stop the blood from crying out
