

Rocks Into Rivers

Seabird

If I were you I think I'd shut my mouth.
Cause with a tongue like that I think I'd cut it out.
I'll make you shiver when I turn rocks into rivers like
Moses.
And if we lose our way, I'll pray that God just shows
us.

In the last time we spoke, you seemed much older,
colder.
In The last time we made eyes, you said it was over,
thank god it's over.

If I were you I think I'd watch my mouth.
Cause with a bite like that I think I'd shut you out.
I'll make you shiver when I turn rocks into rivers like
Moses.
And if we lose our way I'll pray that God just shows
us.

The last time we spoke, you seemed much older, colder.
The last time we made eyes, you said it was over, thank
god it's over.

Oh how much time we waste, wearing our bullet proof
vests.
When our feet our made of god to speed through life and
death.

So run sister run, zig zag to avoid the gun.
We'll live in a cave, where I know we'll be safe.

Oh how much time we waste, wearing our bullet proof
vests.
When our feet our made of god to speed through life and
death.

So run sister run, zig zag to avoid the gun.
We'll live in a cave, where I know we'll be safe.
