

Slow motion movement  
Into the light  
Steadfast I walk  
Into the brightest sight  
Fusion of day and night  
The stars are frozen  
Layers of ice

Ice moving, peaceful  
Exalted but quiet  
The chill and the sea  
Hurl back memories  
Moments of clarity  
You are caressing me

I've been travelling all night  
To reach the coast of New Found Land  
To meet the girl from my dreams  
But she's not there

I sit down by the sea  
At the coast of New Found Land  
And I dream, I dream  
About leaving

I could smell you  
Right through the walls  
These were the days  
Sedateness put in its place  
With you I let go  
Did you know?

I had a thousand lives  
Now the count is down to one  
Playing safe was fine  
But I'll stake it all this time  
As I waded in  
The icebergs sing

I've been travelling all night  
To reach the coast of New Found Land  
To meet the love of my life  
She's not there

I sit down by the sea  
At the coast of New Found Land  
And I smile  
As I dream  
About leaving
