

# Give Me Something

Seafret

What you say tells me nothing  
What's the truth, give me something  
Take me down a road I believe in  
Lost the way, lost all reason  
Oooh, oooh

Give me something  
Search the past for redemption  
Broken glass, no reflection  
Take me to a place I believe in  
Lost my way, lost all reason  
Oooh, oooh

Through the ruins, trying to save it  
'For I fall out, show me somehow I can make it  
All that we gave, was it wasted?  
Falling down broke, only one hope  
That you make it

Give me something  
Give me something  
Give me something  
To hold onto  
I've got nothing  
Since I lost you
