

# Sinking Ship

Seafret

I heard about love, but I'm not ready  
I heard about trust and what you said I believe  
So what about us

It's already too much and it's only just found  
That's no masking love, when you pouring it out  
When you can't get enough

I will never leave you in the dark  
Gave you the sannon of my heart  
The only one who shines a light on me  
If you leaving for somewhere  
No matter what you do I will be with you oh oh oh  
Like a sinking ship out there  
I will get to you before I'll go sinking too

I'm running out of places, that I can't hided  
Why should we care what they say, do you know how it feel  
You don't know no oh

I will never leave you in the dark  
Gave you the sannon of my heart  
The only one who shines a light on me  
If you leaving for somewhere  
No matter what you do I will be with you oh oh oh  
Like a sinking ship out there  
I will get to you before I'll go sinking too ooooooh

If you leaving for somewhere  
No matter what you do I will be with you oh oh oh  
Like a sinking ship out there  
I will get to you before I go sinking too
