

Something In The Air

Seafret

I know you feel that I keep you in the dark,
give it time and your eyes will adjust,
the feelings I hold start bleeding out my arms,
they don't know a thing about us

Fells like, wrecking balls come and set us free,
no iPhone get the world and your still next to me,
now my feet don't touch the ground,
you throw me up, won't let me down
I can spend my life without a care,
with feelings, that there's somethin' in the air

If you knew the story before it was told
so pictures so perfectly clear
if you guessed the ending before it unfolds
I'm sayin' that you'd still be here

Came outta' nowhere
got lost in your stare
I don't see another way

Just like a, wrecking balls come and set us free,
the kind of love that'll blind you but,
you'll never see ours
now my feet don't touch the ground
you throw me up, won't let me down
I can spend my life without a care
with a feeling that there's somethin' in the air

Now my feet don't touch the ground
you throw me up, won't let me down

I can spend my life without a care
with a feeling there's somethin' in the air

Now my feet don't touch the ground!
You throw me up!
There's noway down!

I can spend my life without a care!
Do you feel it!?
There's somethin', somethin, something in the air...
