

## If I'm Any Closer

Seal

I may dream of  
Who comes tumblin' out of the sky  
Trees beneath, sometimes  
I'm wonderin' if I've come too high

Did I forget  
My keys, my facts, my phone, my head  
And, oh, some cash, remind me

Darling, definitely  
I can hear you ask me why

Well, it could be  
This is all in my head  
Yes, it could be  
What I need lies ahead

If I'm any closer I will be here  
I can feel but I can't see  
To tell you the truth I'm not the only one  
Who's tried to find that key

I'm so loud that  
I am climbin' out of my mind  
Walls are crumblin'  
I got out, I made it just in time

Well, it could be  
This is all in my head  
Yes, it could be  
Something we might have read

If I'm any closer I will be here  
I can feel but I can't see  
To tell you the truth I'm not the only one  
Who's tried to find that key

If I'm any closer I will be here  
I can feel but I can't see  
To tell you the truth I'm not the only one  
Who's tried to find that key

If I'm any closer I will be here  
I can feel but I can't see  
To tell you the truth I'm not the only one  
Who's tried to find that, tried to find that  
Tried to find that key
