

Just Like Before

Seal

Raining came down like a melody at your door
Heard it before

Rain in your head
Crying last night but you couldn't get out of bed
What is the use of crying

Baby, baby
Can I come inside
Baby, baby
What's taking so long
Baby, baby
Gotta know it's right
Baby, baby
Can't we go on

Just like before
The train came by but it didn't stop at your door
Oh, Left like a fool
Rain at your eyes be bygones
For crying out loud when your feeling inside is back
What was the use of crying

Baby, baby
Can I come inside
Baby, baby
What's taking so long (Cause my heart is aching)
Baby, baby
Gotta know it's right
Baby, baby
Can't we go on

In this dream
Mercury column is you
And I like the way this feels
Family, at the top of that bottom is you
And I like the way this feels, feels, feels

Baby, baby
Can I come inside
Baby, baby
What's taking so long (Cause my heart is aching)
Baby, baby
Gotta know it's right
Baby, baby
Gotta know it's right (What was the use of crying)
