## **Just Like Before**

Raining came down like a melody at your door Heard it before Rain in your head Crying last night but you couldn't get out of bed What is the use of crying Baby, baby Can I come inside Baby, baby What's taking so long Baby, baby Gotta know it's right Baby, baby Can't we go on Just like before The train came by but it didn't stop at your door Oh, Left like a fool Rain at your eyes be bygones For crying out loud when your feeling inside is back What was the use of crying Baby, baby Can I come inside Baby, baby What's taking so long (Cause my heart is aching) Baby, baby Gotta know it's right Baby, baby Can't we go on In this dream Mercury column is you And I like the way this feels Family, at the top of that bottom is you And I like the way this feels, feels, feels Baby, baby Can I come inside Baby, baby What's taking so long (Cause my heart is aching) Baby, baby Gotta know it's right Baby, baby Gotta know it's right (What was the use of crying)
