

## Loneliest Star

Seal

Picture the sky that is how high I reach  
So far in live none have been right for me  
But your love, is a chance I'd like to take  
With each breath in me I'll wake  
If it brings you back to me

Because I'm free and I'm young  
I'm the loneliest star from the sun  
But I feel that I'm close to the one  
Who will stop me from coming undone

Because I'm free  
I have been close  
I have been almost near (who do you want to wake y'up, who do you want to care)  
White city light  
But nothing quite like here (who do you really want to be right here)

And your love, (your love) is a light that binds us both, (your love)  
With each breath in me I hope  
We won't throw it all away

Don't you know that I'm free and I'm young  
I'm the loneliest star from the sun  
But I feel that I'm close to the one  
Who will stop me from coming undone

(With your love), I know that I could be the best with, (With your love), I know that I could take the risk with (With your love), I could fly with your love, (With your love, With your love), If anyone would try to mess with, (With your love), you and I  
would be possessed with (With your love), I would die for your love (your love)

Don't you know that I'm free and I'm young  
I'm the loneliest star from the sun  
But I feel that I'm close to the one  
Who will stop me from coming undone

Because I'm free, don't you know I'm free  
Because I'm free, don't you know I'm free.
