

# The Big Love Has Died

Seal

So confused I'm amazed I refused  
To believe you'd never change in my time spent with you  
Remember me we were young cool and free  
And i believed in everything you aspired to be

Love is blind  
What a dream what a lie  
When it sees everything in time

And yes dear I believed  
It was my way of self deceiving  
And now its getting late  
And I'm passed all the grieving

Something inside of me breaks  
When i get your phone call  
And i just can't hide

The big love has died  
The big love has died

There is a love thats real i'll always feel and that i can't deny  
But its the friend in me this time you see that has to say good  
bye  
Quietly you and me time to say goodbye

So yes dear I believed it was my way of self deceiving  
And now its getting late and I'm passed all the grieving yeah

Nothing can take away the pain and the sorrow everything at stake

We just missed our time

The big love has died
