

# Spend It All On You

Sean Garrett

Hear smash on the radio,  
You bet I've been there [x2]

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
All my homies always asking why  
But anything for my girl she got it

I got a bottle for you girl  
You do me 100 percent and that's why I spent  
All the bank for you girl  
You never do lie to me girl always beside me  
That's why I ride for you girl  
(Didn't hesitate to give you the shirt off my back)  
Cause I saw what it really was  
And when the cops came to you  
And asked you where cash  
Where the stash  
Told em kiss your ass  
[?]  
I learnt alot about us  
There ain't no you without me  
As a matter of fact I knew girl  
That day you told me you changed  
And just to rectify us  
It's all about trust  
Then we ain't going out that way

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
All my homies always asking why  
But anything for my girl she got it

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
My money, My car, you're everything doll  
I wanna spend it all on you

First thing when we leave up out the club tonight  
I'm a give my girls some good old love tonight  
She was looking better than beyonce tonight  
Maybe not beyonce but like  
If she were like my queen  
And that's the only thing that matter to me  
Wait a minute I looked up  
Homie had his hand on my (goodker)  
Made the whole damn club pull up  
And I know for the violence ain't no need  
But when it comes to my baby I see  
Lemme paint a clear picture  
Nigga can't get no richer  
When that love arrow hitcher  
Baby when you and me  
It's hard tonight  
Thinking bout, getting down  
When all I see, is everything  
Damn I like, what you're about

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
All my homies always asking why  
But anything for my girl she got it

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
My money, My car, you're everything doll  
I wanna spend it all on you

You can blame it on the car  
(Girl I spend tonight)  
You need to keep me on high  
(Ain't afraid to spend the night)  
I said you need a chauffeur  
(You know I'm with that)  
A trip around the world  
(You know I can get that) [x2]

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
All my homies always asking why  
But anything for my girl she got it

Baby I'm willing to spend everything I've got  
I wanna spend all this money on you  
My money, My car, you're everything doll  
I wanna spend it all on you [x2]
