

# Kingston

Sean Kingston

R: I see them coming from afar  
I got my eyes open I'm ready for war  
When I fight mon' they know who we are  
A Kingston they come from, A Kingston they come through  
I see them coming from afar  
The vision thinks that I'm gonna get a scar  
When I fight mon' they know who we are  
A Kingston they come from, A Kingston they come through

My mom is my hero  
Two three nine zero  
Doctor was looking at us talk  
From then I've been strictly on a mission  
I got twenty-twenty vision  
All the haters I can spot them from far  
I'm sure  
Jamacains on slash date  
Probably representin' and bringing it home  
After I sing my songs  
I duck trouble but it keep on lurkin'  
Things going to well the devil start workin'

I see them coming from afar  
I got my eyes open tough luck for ya'll  
Crush, Crush the wall  
I'm still a young boy that drive all the grown folks right up the wall

I'm aware of the snakes cause they near  
They plottin' to get me  
I'm watching my peers  
Bout time in a million  
It's close man I swear  
I feel it in the air and i'm order for them

R:

I'm what it is I'm Macdola hype with a game to back  
Spitting a big ticket number one in the track  
Ease along, baby say ease the bar  
My b's the door  
Bout to take the game by storm

The one and only  
Haters got nothing on me  
I can feel the vibe  
I see it in their eyes  
They praying for my demise  
They don't want to see me blow yo  
Rather see me low low  
Or I be on the floor yo  
But no yo  
I'm pull through this game of tug o' war  
What you fellas fussing for  
Maybe cause I'm grubbing more  
Not unless I'm paying my dues  
Don't hate me  
A little hard work will get you here too

I got next, better yet I got now  
Everybody got faith and yelling cause my hot style  
86 the bullshit they don't want me hostile  
I'ma reign supreme until the day I drop down

R: (2x)
