

# Wrap U Around Me

Sean Kingston

Wrap you around  
Wrap you around me  
Wrap you around, eh, eh

Come over here and give me that  
Some of that somethin' that you got, eh  
Take my hand, take me heart  
Take me anywhere you are

Oh, when I'm losin' my mind  
And the madness just won't stop  
I think about you, I think about me  
I think about us together  
I think of your eyes lookin' at mine  
And I'm better, better

This world's too much for me to take  
Come, give me some, some sweet escape  
Get next to me, come close to me, grab hold of me  
Wrap you around me, oh, oh, oh, oh  
Wrap you around me, oh, oh, oh, oh, eh, eh

Come, take me into that place  
Only your love can take me, eh  
Come, touch me now 'cause you're the one  
With the touch that can save me, oh  
When it all gets too much, when it all gets too crazy

I think about you, I think about me  
I think about us together  
I think of your kiss touching my lips  
And I'm better, better

This world's too much for me to take  
Come, give me some, some sweet escape  
Get next to me, come close to me, grab hold of me  
Wrap you around me, oh, oh, oh, oh  
Wrap you around me, oh, oh, oh, oh, eh, eh

Your love surrounds me on my tender shelter  
I know no one could ever love me better  
Nothing could make me feel the way I feel  
When I'm beside you

This world's too much for me to take  
Come, give me some, some sweet escape  
Get next to me, come close to me, grab hold of me  
Wrap you around me, oh, oh, oh, oh

This world's too much for me to take  
Come, give me some, some sweet escape  
Get next to me, come close to me, grab hold of me  
Wrap you around me, oh, oh, oh, oh  
Wrap you around me, oh, oh, oh, oh
