

Turn It Up

Sean Paul

But don't be alarmed
When the lights come on
That only means you're coming home with me
You're turning me on
You know what you want
I'm turning it up so come and go with me

Turn it up
Baby, we don't have to say goodbye
Let's turn it up
I'mma give you what you wanted
We're just getting started
Turn it up
Baby, we don't have to say goodbye
Let's turn it up
I'mma give you what you wanted
We're just getting started
