Baby girl just give em the wickedest style

Give em the wickedest style

Drop to the floor, I got the money empire  
Give em the wickedest style

Wind for the world, you know you're well versatile  
Give em the wickedest style

Because if we'll smoke two pon repeater  
Poppin in 2, does em buckle up me feet  
Hennessey get out the break bomb, taking out the D cup  
Money on the clique touch the street well made up  
Run it up, we link up, put the drink

And now my friend that bring come and sip pon the big cup  
Selector posed to dance on the block then I raise up  
Give me the microphone, now let me sing something, girl

Drop it low  
Show me what you're workin with, girl you show me, we burn it up

I know you falling in love from that look pon yo face  
If I leave it there for you could you pick it up, pick it up  
Got a hell of an appetite, let me know if you big enough  
I'm talking high life, such a high price but we pay  
Do this all night. Everything be alright, that's what we say  
So original, super wicked style, we get wild

If it's right how we does it now, how you like me now?  
Money talks, if you without it then don't mention my name  
Ain't no competition within me and they make the same  
Need a Benz or a better just to get in my line  
Flyin private, we get at it til they see me on the plane  
Talkin fly right til we turn night into day  
We could take time and never waste time cuz I don't play  
So original, super wicked style, super wicked  
I can give it to you but tell me what you gon do, well tell me

You should know  
The way you bumpin it
