

I Love You (bitch)

Sean Price

[Sean Price]

Ayo words can't express the way that I feel *whistles*
Yo, ya ass is fat, ya brain is small
You slap the kids and ya chain is pawned
You look like shit, you destroying yourself
Heineken for breakfast-ass bitch
You don't even make my dick hard no more
Gotta think about my ex to get erect
Gotta take X when I'm erect
Stretchmarks, titties lookin like prunes
Fuck you with the lights off from behind in the room
My sister told me to leave ya ass alone, but f**k it..

[Sean Price]

Y'all know how I met her, we broke up & got back together
Then broke up and got back together, pshh.
I love you I hate you I hate you I love you
Whatever it is, do it on the strength of your kids
When I was f**ked up in the game, you held me down
I'm still f**ked up in the game and you holdin me down
Listen ma, we gon' make it
Push come to shove, wrap the snub, we gon' take it
(nah mean? I love you ma) Yo, yo..
Our love is like husband & wife or a brother & sister
Unconditional love, even if I ain't with ya
'member when I f**ked up, you kicked me out of the house?
Wait a minute that was yesterday!
came through the next day, started foreplaying
You asleep but why the f**k you move ya breast this way
We ain't meant for each other
I ain't shit you ain't shit, bitch we meant for each other
Fight all day, f**k all night
Ruck ain't shit, but Ruck all right
Love my kids but got no dough
And I... love you bitch, I'm lettin you know
