## **Forever Haunted**

That's the last nail in your coffin This time you'll never break free Chains and ropes surrounds you Why can't you leave me be Buried in the deepest grave Under tons of stones and concrete You will become free from my mind

That same night I felt your stare I heard your voice whisper Beware I better prepare The curse still lives it is not dead Yes something is behind me Something I can't see but I can feel Twisting shadows of the dead

Cursed doomed condemned To be forever haunted

I dragged you inside and tied you up Everytime I see through your disguise Please die when I set you on fire Crematoria, filled with euphoria But something is behind me Something I can't see but I can feel Resurrection of the dead

Uncontrolled rage Slash stab This will certainly bring you home You tried to run tried to hide I sliced you open

Rip tear Hacking chopping you in half Maiming haste Death embraced Smash you to dust

Die it's you again Why I'll kill you again

To no prevail you are here again Now you are everywhere I've killed you once I've killed you twice And now I will kill you again But something is behind me Something I can't see but I can feel Recollection of the dead
