

Man Overboard

Seasick Mama

Told myself go somewhere far
Where no one will see us
Don't sleep up we can't take it too far
You can tell her it's nothing between us

You made it crystal clear
That you are too scared to make waist

Dirty water will exhaust you
And it does
You'll burn out fast
Don't settle this easy if you're not happy
Break out the storm and pull it down

Dirty water will exhaust you
And it does
You'll burn out fast
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
There's a man overboard

Gave my love to a sad man
He made me wait
Made me wait
Keep your options open
Hand in hand with a mad man
Oh what would it take
Will you know whose heart goes broken?

You made it crystal clear
That you are too scared to make waist

Dirty water will exhaust you
And it does
You'll burn out fast
Don't settle this easy if you're not happy
Break out the storm and pull it down

Dirty water will exhaust you
And it does
You'll burn out fast
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
There's a man overboard

You made it crystal clear
Now it's crystal
You made it crystal clear
That you are too scared to make waist

Dirty water will exhaust you
And it does
You'll burn out fast
Don't settle this easy if you're not happy
Break out the storm and pull it down

Dirty water will exhaust you
And it does
You'll burn out fast
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
There's a man overboard

Don't settle this easy if you're not happy
Break out the storm and pull it down

Start swimming ...
Cause if you're waiting
Calling SOS man overboard
There's a man overboard

Don't settle this easy if you're not happy
Break out the storm and pull it down
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
There's a man overboard
Don't settle this easy if you're not happy
Break out the storm and pull it down
Start swimming ...
Cause if you're waiting
Calling SOS man overboard
