

Rules Don't Apply

Seasick Mama

Just let him go
Just say goodbye
Just let him know rules don't apply (2x)

It's time to be in charge
A hot shot
It's time to let your hair down
And what not
Just forget about the past 20 years

It's time to be aggressive
And just fight
Don't let him fool you
You're too bright
He's not worth all those cold cold tears

The more you care, the more you drown
So let him go and enjoy the ghost town
The more you care, the more you drown
Your happiness will come back around
Just let him go
Just say goodbye
Just let him know rules don't apply (2x)

He should call from jail
Just to hear your voice
Don't feel guilty there's no point
Your children are all grown and gone

If everything was all perfect
100 percent
Whats the point of trying
It doesn't make sense
Lets destroy it all and start over again

The more you care, the more you drown
So let him go and enjoy the ghost town
The more you care, the more you drown
Your happiness will come back around

So let him go and enjoy the ghost town
Your happiness will come back around

Just let him go
Just say goodbye
Just let him know rules don't apply
