

Tees And Jeans

Seasick Mama

I lost my mind, don't get up
You seem fine, must be tough
Broke my rules, damn on you.

Just relax, I'll crawl back
Keep my word, I won't crack
I'll lay down, just for you.

Chorus:

Naked is the only way we break all the rules
All the one night stands are leaving my heart feeling blue
Now's the time to build that wall and run far from you
Stop breaking my all my rules, breaking my rules

Go ahead walk on me
I choose to make believe
I break hearts damn not you.

Hate the game you play it well
Out all night under spells
We are done don't trust you.

Chorus:

Naked is the only way we break all the rules
All the one night stands are leaving my heart feeling blue
Now's the time to build that wall and run far from you
Stop breaking my all my rules, breaking my rules

I ask for you in the dark
Too much to ask to play the part
I waited for you to come around
But every night you shut me down
I waited for you to burn a flame
But you're the type that's hard to tame

I ask for you to break my heart
Knew it would come from the start
I waited for you to come around
But every night you shut me down
I waited for you to play the fool
But it was me that broke my rules

Chorus:

Naked is the only way we break all the rules
All the one night stands are leaving my heart feeling blue
Now's the time to build that wall and run far from you
Stop breaking my morals breaking my rules
