

Drop your guard, I'll get to know you  
Simon says it's time to move  
And God only knows I think about you  
'Cuz its never time to show and prove  
It's never time to show and prove  
Hiding all the time destroys me  
Never know what's right to do  
I only needed to feel a balance  
I just want to do right by you  
Sitting safe beside the truth  
Beside you  
Watch out for my bullshit  
Everybody's got it  
Careful as a soldier we're so strong  
Begging my new teacher  
Thought you'd never reach her  
She's standing there in front of you  
It's twice as hard to fool us  
It's twice as hard to fool us  
Careful as a soldier we're so strong  
Careful as a soldier we're so strong
