

Word For Word

Second Person

I love you, but I don't believe you
I don't know why I just don't leave you
'Cause if you treat me like you hate me
Then you don't need me do you baby

I love you, I believe you love me
I'm so happy we worked it out
But sometimes you treat me just like you hate me
I know you don't really I'm just too proud

Oh, I love you, I think you love me
If I happen to get hurt
You can be certain, you can be sure
But I will recall it word for word

Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Still don't know what you're tryin` to say
Still don't know what you're sayin` to me
No, no

I may be inclined to immortalize you
That's a right I exercise
And you can sue me so you never knew me
But never for the big surprise

This is my business, it's my profession
You should`a questioned what I do
And if you mind me and treat my kindly
Then I will do the same for you

Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Still don't know what you're tryin` to say
Still don't know what you're sayin` to me
No, no

What never displeased you for no reason
I would never have the nerve
But in every basic situation
You have to get what you deserve

And if you ever f**k me over
Well don't expect any guarantee
'Cause I have my music and I can use it
To say anything I please

I love you, but I don't believe you
I don't know why I just don't leave you
'Cause if you treat me like you hate me
Then you don't need me do you baby

Don't know what you're talkin` about

Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Still don't know what you're tryin` to say
Don't know what you're sayin` to me
No, no

Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're talkin` about
Don't know what you're tryin` to say
Don't know what you're sayin` to me
No, no
