

## Back To the Old Days

### Secondhand Serenade

I've been around the world, seen a lot, seen a little  
But everything is better when it's just plain simple  
Always sleeping in, skipping out monday night  
Counting on my tips, saving up for whatever  
Make a little move on my best friend's sister  
Ain't nobody wrong, everybody gonna feel alright  
And talk about a good time

Living life like it's a dare  
Getting high with time to spare  
Look how everything has changed  
Take me back to the old days  
Every day a brand new start  
Dressed up in the same old smile  
I am proud of my ways  
Take me back to the old days  
Back to the old days

I had an old guitar, had a band, had some people  
Strumming out, playing out, waking up the neighbors  
Didn't have a lot but it's all I would ever need  
Camel on the back, it was fun, I was living  
Nothing ever lasts cause the world keeps living  
Holding onto the way it used to be, it was always easy

Living life like it's a dare  
Getting high with time to spare  
Look how everything has changed  
Take me back to the old days  
Every day a brand new start  
Dressed up in the same old smile  
I am proud of my ways  
Take me back to the old days

I think we'll take a dare for and tell myself the glass is full  
I turn off the phone and get on with all the worries of today  
We'll be okay

Back to the old days  
Take me back to the old days

Living life like it's a dare  
Getting high with time to spare  
Look how everything has changed  
Take me back to the old days  
Every day a brand new start  
Dressed up in the same old smile  
I am proud of my ways  
Take me back to the old days
