

Right Kind of Crazy

Secondhand Serenade

We're just living our dreams
Living our dreams doing what we please
Getting drunk at graduation while the band plays
How's it gonna be
Let's jump the gun, adventure waits for you and me

Driving all night
Driving all night trying to get lost with you
Hop a red eye out to Vegas, feeling lucky
If it's what we want to do
Oh, the places that I'd go with you

Buckle up and hold on tight
This is a roller coaster ride
It can't be wrong to be the right kind of crazy
And no we never turned down a fight
And if it all ends tonight
At least we were the right kind of crazy

We won't settle for anything
Unless we got everything we take it all
We don't care about the consequences
As long as we remember that we're not as small
As we always seem to be
This world is ours, you see

Buckle up and hold on tight
This is a roller coaster ride
It can't be wrong to be the right kind of crazy
And no we never turned down a fight
And if it all ends tonight
At least we were the right kind of crazy

Let's ride this night, take on this last life, oh, let's go
This way someday we can say, we went all the way

Buckle up and hold on tight
This is a roller coaster ride
It can't be wrong to be the right kind of crazy
And no we never turned down a fight
And if it all ends tonight
At least we were the right kind of crazy
