

## Edge Of Wilderness

### Secret And Whisper

We write your name across the sky  
We fear your ways, we hear your cry  
Determined youth will capture you  
And tear out your insides

We'll be offering  
The bravest man our daughter's hand

You've been to the edge of wilderness  
Breaking from the curse of loneliness

The Northern Lights  
Will keep away the fierce and ugly

We'll be offering  
The bravest man our daughter's hand

You've been to the edge of wilderness  
Breaking from the curse of loneliness  
Determined youth  
Bring home the head and bloody tooth

You've been to the edge of wilderness  
Breaking from the curse of loneliness  
Determined youth  
Bring home the head and bloody tooth
