

# Hello Goodbye

## Secret Discovery

The day is swallowing the night, you lie by my side  
the light is burning my eyes, I see black and white  
all that I want ... is to be free  
all you can give ... is killing me

hello, hello, I'm gonna leave you I want to say goodbye to you

I cannot tell you what I think, you won't understand  
you give me everything you can, but it slips through my hands  
all that I have ... your love for me all that I miss ... I will  
never be

I can't stand this crash no more, I cannot move I cannot laugh,  
I cannot breathe, you're gonna squash me  
I want to say goodbye to you

hello, hello, I'm gonna leave you I want to say goodbye to you
