

Faded Lines

Secret Machines

Faced with lies
Don't you think that you just lie?
Caught inside
Worlds made mostly of lies
Make up your mind
'cause it's all we love
That's all
Just faded lines
Overwhelmed
Overjoyed is the same
Beneath the stillness
The place where coldness meets cold
Make up your mind
'cause it's all we love
That's all
Just faded lines
And what else?
Yeah, I was scared
The seconds dripped past
So slow
But I just stood there
I thought you
Should know
