

# Now Here Is Nowhere

Secret Machines

Aging eyesore  
Nearly nowhere  
Found, unearthed  
A moment burst with all of us  
Relfecting dust in the oh, most high (oh, most high)  
As morning light bled  
Over glass white  
Burned out daylight  
Plain and just  
As I turned, it thurst its softly worn  
The newly born  
In the hardly there (hardly there)

Who rests  
In dust?

Who moves  
In air?

(Our lives  
Erased  
Our lives  
Erased  
Our lives  
Our lives  
Our lives)

Swollen nowhere  
Breathes,  
Laughs  
Don't you see?

All this time (all this time)  
All this space (all this space)  
All these words

(Our lives  
Our lives)

(Swollen nowhere  
Breathes,  
Laughs  
Don't you see?)

(All this time  
All this space  
All these words)
