

Darling, You're My Girl

Secret Service

You are my real love
And you're always last
Inside my mind
Close off the past

Something you got
Nothing can change
Something you got
Makes it so strange, so strange

Darling you're my girl
My broken heart will never mend
Darling you're my girl
Don't try to tell me it's the end
I wanna hold you again and again
Stay with me

You keep me alive
And dry all my tears
A part of my dreams
That kills all my fears
Something within
Makes it all true
Something within
Holds on to you, to you

Darling you're my girl
My broken heart will never mend
Darling you're my girl
Don't try to tell me it's the end
I wanna hold you again and again
Stay with me
