If You Need Me

Secret Service

Hold me close the night is ending
Take me on before you go
Stay in touch and I'll be sending
My love to you, love to you

Don't be scared, afraid of living
I'll be there to help you through
Still a friend I'm always giving
My love to you, love to you

If you need me
If you need me
If you need me

Don't pretend, trust your feelings
Stand by me, let dreams come true
Save the night and tender sealing
My love to you, love to you

If you need me
If you need me

Even if a distance comes between
Even then you still can trust
My love to you, love to you

If you need me
If you need me
If you need me
