

Just A Friend For The Night

Secret Service

When I close my eyes
I can still recall at night
I just close my eyes and turn -

Turning out the light
Darkness brings you back in sight

Why did you have to go?
Woke memories of the night
Sure I feed a dream that won't come true

Things all lovers do can make me
Just a friend for the night
Till darkness turns into light
How can I hide my tears when I cry?

When I close my eyes
I hear you voice call my name
I just close my eyes and try -

Try to hear again
Deep inside words remain

Now when you are gone
Three words have left my life
I only use 'em when I write a song

Words all lovers use can make me
Just a friend for the night
Till darkness turns into night
How can I hide my tears when I cry.
