

Say Say

Secret Service

Say, say 'cause I'm longing to hear
I know love don't come easy
Say, say I have looked everywhere
Where else could I find someone like you

You're lying here by my side
You're sleeping we're close together
I didn't even know
That I could feel the way I feel for you

I kiss you and touch your hair
I have to leave - it's morning
If only I could stay
If only I could hear you say

Say, say 'cause I'm longing to hear
I know love don't come easy
Say, say I have looked everywhere
Where else could I find someone like you

Why do I have to hide
When I wanna stay forever
I don't know what to do
Could I tell how much I need to know

Say, say 'cause I'm longing to hear
I know love don't come easy
Say, say I have looked everywhere
Where else could I find someone like you
