

Special Songs

Secret Service

Special songs brings the memories back
I remember, when hearing those facts
I wonder I wonder I wonder
Where are you now

This song by Rick Nelson
Was played on the radio
The song filled with memories
Mem'ries I share with you

You and I on a sunday
You and I at the dance
When they played that song
You took me by the hand

Special songs brings the memories back
I remember, when hearing those facts
I wonder I wonder I wonder
Where are you now

The place where they played
It is up there today
Just like the memories
Lead us to yesterday

But I will always remember
You and I at the dance
When they played that song
You took me by the hand

Special song brings the memories back
I remember, when hearing those facts
I wonder I wonder I wonder
Where are you now
