

Thank You For That Night

Secret Service

Thank you for that night
For teaching me that I existed
Thank you for that night
For the byways we travel together
Softly through my soul
You're still inside my head

Oh keep me in your heart
Let the image of me find a shelter
Keep me in your heart
While you lay down your head on my shoulder
Drifting from afar
You're still inside my head

Thank you for that night
That which I leave behind with the hours
And thank you for that night
This one only of your flowers
When the dreamer falls asleep

Reach out for the time
Try to hold on while love is in season
Reach out for the time
And see if your fingers can touch me
Walking through my mind
You're still inside my head

Thank you for that night
That which I leave behind with the hours
Thank you for that night
And thank you for that night
This one only of your flowers
When the dreamer falls asleep

Softly through my soul
You're still inside my head

Oh, and keep me in your heart
Let the image of me find a shelter
Just keep me in your heart
While you lay down your head on my shoulder
Drifting from afar
You're still inside my head
