

# Lady Of Silence

Secret Sphere

The court of eternity  
has given the sentence,  
her mistery lives in the eyes of blinds,  
condamned to a life without light  
where love lives at the borders of reality

Now your shiny will,  
your will fills my eyes,  
hold you memory  
through this infinite dawn

I want you, I feel you,  
you're in my heart forever,  
this pain I feel,  
my lady of silence,  
surround me forever

Fall from grace  
and nighth falls down,  
oh she can see,  
her dreams become her nightmare  
nothing will come,  
nothing will tear us apart  
except my condemnation,  
all the pain I'll live

until the end of time...

I want you, I feel you,  
you're in my heart forever,  
this pain I feel,  
my lady of silence,  
surround me forever

I breath the cold,  
my neck skin crawl,  
I look in darkness wondering where you are,  
a shadow's there, stare in the eyes,  
I try to kiss who nevermore will live

Where am I now? In a new dimension?  
is it the reign of eternity?  
I was frightened to loose my way,  
like an angel I'm flying, flying high

I want you, I feel you,  
you're in my heart forever,  
this pain I feel,  
my lady of silence,  
surround me forever
