

Under the reign of sun  
waves my soul,  
inside a body of queen,  
beats now my heart,  
when sleeps a secret,  
dismal theatre,  
wrapped in mistery

I am the lord of all  
you can see,  
I am all,  
I am the king of everything  
here on earth

Welcome to kingdom  
of illusion lord of underworld,  
ghost without a name  
you spent your life in dark  
victim of a secret, lord of silence,  
I call you from the dark,  
I call you from my hell

Still I don't know,  
my face prisoner  
in the shadow of this cell,  
my only comfort is in death

I'm afraid and confused,  
but no one can hear my  
silent cries I'm dying in my loneliness  
and I don't know why

Welcome to kingdom  
of illusion lord of underworld,  
ghost without a name  
you spent your life in dark  
victim of a secret, lord of silence,  
I call you from the dark,  
I call you from my hell

I touch your cold lips,  
can you forgive me?
