

His Fire / My Flame

Secrets of the Moon

Watched with the eyes of the ancient
When fire cleans the soul
The final constellation of stars
Slowly my flame erases

Add up the flame... until a new fire awakes

Memories... a final serenade
Traces between and below

When flames are past forever
A fire cannot burn
His fire... my ashes
Paradise in flames

Taste the hunger... taste the thirst
No final flame... a new rebirth

Add up the flames... until a new fire awakes

His fire... my flame
A final revenge... eternal pain
