

You paint with colours i like to wear
your lines and angles move me like a prayer
kiss me everyday, everywhere
picture me inside and i'll be there

Got a way to pave our own forever
seize the day, till things get better
live to see your eyes fill up with pleasure
the world is sleeping as we lay together

you appear to me like a rainbow
the rain stops - the sun glows
i'm around, homeward bound for you, baby

lovely...lovely is the way you love me
you make me wanna be close to you -
give you all of me
lovely...lovely is the way you love me
you're more than beautiful

i lose my way, you get me back on track
i go to far, you pull me back
i lose my temper, get caught in anger
you cool me down i surrender
you move rocks out of the way

you take me as i am everyday
we light up the dark of the night
come see two stars collide

your blue soul
your true hart
make my shell fall apart
scars and scratches
i show you mine
no more need to run and hide
this ship of love
still at the dock
beore we're off
let's lock it up
throw away the keys into the sea
and stay with me

lovely...lovely is the way you love me
you make me wanna be close to you -
give you all of me
lovely...lovely is the way you love me
you're more than beautiful
