

## Painful Innocence

Seelenkrank

Remember the night without misery  
Drag me down from Heaven  
Morning full of emptiness  
We are standing at the gate  
Is this the meaning of the end?  
Fading like a flower  
Cold will break you  
Will break your faith

This is painful innocence  
We lost our passion  
Darkness was waiting for us  
Promises were broken  
Is there an end of the lie?  
We closed, we closed our eyes  
Waiting for tranquility  
It seems like blasphemy
