

Gone With The Rain

Seelennacht

Your eyes are far
In departed times
In these days of yearning
I keep on waiting for a sign

All lights are on
On an open sea
To find my shelter
Is all I wanna feel

So many days I wait for you
So many tears I'm gonna lose
Can't you see we're still alive?

We find a way to turn back time
Come take my hand, we redesign
I breathe the air of yesterday

When the rain is falling down
When the night begins to sound
I will be there on my way
I am gone with the rain

When the walls are closing in
When the times will be changing
I am standing on the shore
And I am gone with the rain - once more, (once again/today)

Is this the way that I should go?
I can't believe, I miss you so
In this winter's piercing cold

Dreams come to life and fall apart
Time still remains when I stand guard
For all the hopes we hide inside

Your eyes are far
and the times are gone
In these days of yearning
I keep on waiting all alone for you
