

## Numb

## Seemless

Down forcing it down  
I got no one to blame for the state that I'm in  
Down forcing it down  
I got to get away got I got to get out of this place

Searching for another way  
No more trying to escape  
Now I'm standing face to face with my pain

Down choking it down  
Got no one to blame for this state that I'm in  
Down choking it down  
I got to get away got to get out of this place

Searching for another way  
No more trying to escape  
Now I'm standing face to face with my pain  
Desperation has a way of making you crazy
